

Power Pack^{for iPhone 5}

AM408

Never be without power again. A feather-light Battery Case for your iPhone 5. With its slim design, it follows the shape of the iPhone 5 on perfectly, protects the back and fits in any pocket without adding too much bulkiness.

The 2300mAh battery ensures that your iPhone always has enough power available to make calls, check Facebook, Twitter and e-mail. With the high performance of the Power Pack, your iPhone 5 is already charged within 2 hours!

All Xtorm devices come pre-charged, so you can use them right out of the box. A charging cable is also included. To make things simple, this Power Pack is plug & play and has only one button with multiple functions: On/Off & Battery status. Just slide your iPhone in, press the button, and presto! The charging cycle begins.

In Short:

- Backup Power & Case in one
- Plug & Play
- Made for iPhone 5
- High charging performance
